CLEANING TECHNOLOGY

BLUE SKY™

Ammoniated Glass Cleaner

Blue Sky™ is an ammoniated glass cleaner that penetrates and dissolves smears, smoke film, insects, soil, finger marks and food stains from mirrors, windows, windshields chrome and other reflective surfaces. Leaves surfaces clean and glistening. Dries fast - no unsightly streaks or smears.

VERSATILE

Recommended for all glass surfaces. An excellent light duty all purpose cleaner for chrome, porcelain and ceramic tile.

USDA AUTHORIZED

Rated C-1 for use on all surfaces in inedible product processing areas, non processing areas, and/or exterior areas.

STREAK RESISTANT

Will not smudge or streak. Leaves glass surfaces sparkling clean eliminating dirt trapping film.

DIRECTIONS FOR USE

CLEANING

Hold container in upright position 4 to 6 inches from surface to be cleaned. Press button, making sure spray is pointed toward glass. Spray sparingly avoiding furniture and varnished or lacquered surfaces. Wipe immediately with clean cloth or paper towel. Change cloths or paper towels as soon as soiled to prevent streaking.
