

FRANKLIN
CLEANING TECHNOLOGY

GLASS & MULTI-SURFACE CLEANER

A Green Certified, advanced formulation of special ingredients to dissolve greasy film, fingerprints and smears. Leaves glass and reflective surfaces smudge and streak free. Effectively cleans glass, mirrors, Plexiglas®, acrylic, stainless steel, chrome, counter tops, tabletops and other reflective surfaces.

USER FRIENDLY

Fast drying formula, cuts through film and grime quickly. It leaves surfaces sparkling clean with no streaks or smears. Quick easy cleaning reduces labor.

COST EFFECTIVE

Multi-surface cleaner recommended for use on glass, windows, mirrors, plastic, Plexiglas®, metal and other hard surfaces. Reduces the number of cleaning products required and simplifies training requirements.

- ## PRODUCT SPECIFICATIONS

PRODUCT AVAILABILITY

A modern bathroom vanity featuring a long, white, solid-surface countertop. Three chrome faucets are installed along the countertop, each with a small, square, chrome push-button drain stopper in front of it. Above the countertop, three large, rectangular mirrors are mounted on a wall of light beige square tiles. Each mirror is framed by a thin, dark border and has a long, horizontal LED light strip integrated into its top edge. The lighting is bright and even, reflecting off the tiles and the countertop. The overall design is clean, minimalist, and functional.
