## FORMULA 900®

Non-Acid Foamy Soap  
Scum Remover

**Formula 900® is a non-acid formulation built to eliminate heavy soap scum deposits in showers, restrooms and swimming pools without obnoxious acid odors. Produces a thick heavy foam that clings to vertical surfaces when used at 1:10 or greater dilution ratio. In Northern climates, Formula 900® neutralizes ice melt residue. Formula 900® may also be used as a fail safe rinse additive when stripping floors. Safe for most washable surfaces.**
